## Dear Reader,

Although the history of treatment at health resorts can be traced back to the middle ages, it has recently seen a major paradigm shift. Preventing illness and suffering has become particularly important in our society, as it is only possible to enjoy the fruits of a long working life worry-free if you enjoy high quality of life. As a result, health resort stays represent an investment in a future that we all want to experience in good health.

However, if we fall victim to fate; if accidents, strokes, malignant tumours or heart attacks unexpectedly throw a spanner in the works of our future plans, it is rehabilitation that can return us to our working or personal lives.

BVA has developed quality services for you in the areas of prevention and rehabilitation, which we will present to you in the following summary. Consult your physician of choice and prevent illnesses, or help yourself to return to your former work place and the family through rehabilitation.

With best wishes for your health

Dr Alexander Haubenstock  
BVA Chief Physician

## Would you like to apply for a health resort, convalescent care or rehabilitation stay or apply for a grant for a health resort stay?

### You need to do the following:

Obtain the application form (HV-KUR 1) from your regional or branch office or download it from our website [www.bva.at](http://www.bva.at) and give it to your doctor, who will fill in the medical section. Please provide your personal details and send the form to your regional office (you can find the address on the reverse side of the brochure).

### Please note:

Every claim for extended medical treatment requires prior approval. Please ensure you wait for such approval.

### Cost contribution:

We are legally obligated to collect a contribution from patients to cover the costs of rehabilitation, health resort and convalescent care stays, which is payable before or at the start of the stay.

For rehabilitation stays, you pay the cost contribution for a maximum of 28 days per calendar year.

The amount of the cost contribution to be collected depends on the gross monthly income of the main insured person at the time of the application (also applies to co-insured relatives).

The following rates apply for 2019:

Monthly gross income	Daily contribution
Less than EUR 933.07	not applicable
Up to EUR 1,514.44	Step 1: EUR 8.36
Up to EUR 2,095.83	Step 2: EUR 14.33
Over EUR 2,095.83	Step 3: EUR 20.31

Co-insured relatives are taken into account when calculating the amount of the contribution to be collected. EUR 465.91 is deducted from the monthly gross income for spouses and EUR 143.97 for each child.

You do not pay a cost contribution if you are exempt from prescription fees (exception: people who are exempt from prescription fees because they have reached the upper limit).

## Section one – BVA-owned facilities

---

### Rehabilitationszentrum Engelsbad

Weilburgstraße 7-9  
2500 Baden bei Vienna  
Tel.: 02252 845 71-81101  
Fax: 02252 845 71-81888  
Email: rz.engelsbad@bva.at  
www.bva.at/engelsbad

Medical Director: Dr Alexander Fellmann-Bauer  
Care provider: Sylvia Greiner  
Administrator: Thomas Geiß-Granadia

### The Rehabilitationszentrum Engelsbad specialises in the following areas:

**Rehabilitation** in the event of musculoskeletal disorders

- Stays after operations on joints and the spine
- Chronic musculoskeletal complaints

The Rehabilitationszentrum Engelsbad has 124 single-occupancy rooms equipped with a shower, toilet, television set, wireless internet and telephone, and some with a balcony or access to a terrace. 19 of these rooms are suitable for wheelchair patients (electronic height-adjustable desk and the toilet can be electronically adjusted to the height of the patient etc.).

All of the facilities at the Rehabilitationszentrum Engelsbad are accessible for disabled patients. There is a cosy café in the foyer to pass the time. All of the dishes in the restaurant are freshly prepared and available as a buffet.

Medical facilities at the rehabilitation centre include functional areas for various non-invasive diagnostic and therapeutic procedures, x-rays, ultrasound and outpatient care, as well as treatment, exercise and training rooms in line with the required treatment for the indication.

## Therapiezentrum Rosalienhof

Am Kurpark 1  
7431 Bad Tatzmannsdorf  
Tel.: 03353 83 87  
Fax: 03353 83 87-83801  
Email: [tz.rosalienhof@bva.at](mailto:tz.rosalienhof@bva.at)  
[www.bva.at/rosalienhof](http://www.bva.at/rosalienhof)

Medical Director: Dr Bruno Mähr  
Care provider: Dagmar Krastev  
Administrator: Friedrich Weber

### The Therapiezentrum Rosalienhof specialises in the following areas:

#### **Rehabilitation** for oncological aftercare

- Stays after tumour surgery or after chemo/radiotherapy
- Treatment for tumour-related pain (e.g. lymphedema, nutritional problems following gastrointestinal tumours)
- Relapses and metastases (following corresponding medical treatment from the oncological centres)

#### **Treatment stays** in the event of musculoskeletal disorders

The Therapiezentrum Rosalienhof provides a comfortable and safe environment with its 126 single-occupancy rooms. The single rooms are equipped with a shower, toilet, radio, television set, telephone and balcony.

A breakfast buffet is provided every day, with a choice of three set menus, offered at midday and in the evening, which are prepared using fresh and often organic produce following the instructions of dieticians. These meals are supplemented by snacks, additional nutrition, salad buffet and even meals being prepared as required by the patient in special cases.

## Therapiezentrum Justuspark

Linzer Straße 7

4540 Bad Hall

Tel.: 050405-85550

Fax: 050405-85900

Email: [tz.justuspark@bva.at](mailto:tz.justuspark@bva.at)

[www.bva.at/justuspark](http://www.bva.at/justuspark)

Medical Director: Dr Michael Bach

Care provider: Petronella Spitzbart

Administrator: Herbert Gerner

### The Therapiezentrum Justuspark specialises in the following areas:

#### **Rehabilitation** of psychological disorders

- Stays for affective disorders, anxiety disorders, somatisation disorders/neurotic disorders/PTSD, personality disorders, schizophrenic disorders, burnout

The Therapiezentrum Justuspark offers bright, friendly and comfortable individual rooms for 100 patients set in a first-class hotel environment. Each room has its own shower, toilet, television set, wireless internet connection, telephone and balcony. Parking spaces are available in the underground car park.

The modern treatment programme, based on the latest scientific findings and which integrates an innovative exercise and nutrition concept, is the cornerstone of a successful stay at the Therapiezentrum Justuspark, encouraging both convalescence and a long-term change in lifestyle.

Patients are invited to relax after treatment in various patient recreational rooms, a library and roof-top terrace with a panorama room, a cafeteria and a sun deck. The range of recreational options is rounded off by a sauna and extensive grounds.

## Rehabilitationszentrum Austria

Stifterstraße 11  
4701 Bad Schallerbach  
Tel.: 07249 425 41  
Fax: 07249) 425 41-84888  
Email: rz.austria@bva.at  
www.bva.at/austria

Medical Director: Dr Günther Stowasser  
Care provider: Hedwig Hartl  
Administrator: Andreas Straßl

### The Rehabilitationszentrum Austria specialises in the following areas:

#### **Rehabilitation** for cardiovascular diseases

- Stays following myocardial infarctions
- Coronary heart disease without infarction
- Aftercare stays following heart or vascular surgery
- Blood circulation disorders in the legs

#### **Angiography** for diagnosis and to widen the coronary vascular system

#### **Rehabilitation** for metabolic disorders

- Diabetes mellitus and adipositas

#### **Rehabilitation** for respiratory diseases

- Stays following exacerbation of a COPD, pneumonia or lung embolism
- Treatment in case of COPD, Bronchial asthma, pneumothorax, pulmonary fibrosis, asbestosis, bronchiectasis and sarcoidosis

The Rehabilitationszentrum Austria has a total of 177 single-occupancy rooms. The rooms are equipped with a shower, toilet, television set, telephone, wireless internet and balcony.

Medical facilities at the rehabilitation centre include the monitoring ward, x-rays, cardiac catheter lab, outpatient clinic, laboratory, electrotherapy, physiotherapy and psychological care.

Comprehensive advice on nutrition in line with the latest medical nutritional and scientific findings is also available.

## Therapiezentrum Buchenberg

Hötzendorfstraße 1  
 3340 Waidhofen a. d. Ybbs  
 Tel.: 07442 522 85  
 Fax: 07442 522 85-82802  
 Email: tz.buchenberg@bva.at  
 www.bva.at/buchenberg

Medical Director: Dr Clemens Kaufmann  
 Care provider: Michael Mizda  
 Administrator: Martina Penz

### The Therapiezentrum Buchenberg specialises in the following areas:

#### Rehabilitation for neurological disorders

- Stays following a stroke
- Treatment for all types of neurological disorders
- Multiple sclerosis (MS)

#### Rehabilitation for metabolic disorders

- Diabetes mellitus
- Adipositas (up to a maximum of 150kg)
- Metabolic syndrome (hypertension, dyslipidaemia)
- Chronic inflammatory bowel disease
- Functional disorders in the gastrointestinal tract
- Chronic liver diseases
- Food intolerances
- Multimodal smoking cessation including nicotine replacement therapy

#### Convalescence

- Treatment after operations and serious diseases

The Therapiezentrum Buchenberg has 145 accessible rooms. The eleven spacious, dual-occupancy rooms on the neurorehabilitation ward meet the technical standards of a hospital. Family members may accompany the patient to care for them and train them. The single rooms are equipped with a shower, toilet, television set, wireless internet connection, telephone and balcony. Dual-occupancy rooms are also available for patients with a companion or for married couples.

Our treatment objectives include, among others, capacity to work, independence, mobility, ability to interact socially and to pursue recreational activities, as well as long-term prevention.

## Section two – Inpatient rehabilitation

---

Rehabilitation helps to restore the health of people who have been physically or mentally affected by an accident or illness.

Rehabilitation stays are approved for periods of 22 or 29 days depending on the indication.

### Your cost contribution

In accordance with statutory provisions, you are required to pay a cost contribution (your own contribution) for a maximum of 28 days per calendar year towards your rehabilitation stay. The amount of the contribution is calculated at the time the application is submitted. You always pay the cost contribution rate valid for the current year of your stay (see page 6).

### Desired facilities

You can indicate your desired location on the application form. We will be happy to comply with this request if possible. **However, preference is given to BVA-owned facilities.** We only approve contract facilities if such BVA-owned are at full capacity.

### Transportation to the facility

The BVA will pay for an ambulance or taxi to the nearest rehabilitation facility if there is a medical reason to do so. Transportation for the journey to a rehabilitation facility must be approved by the BVA before the start of the stay.

### Interruption or early departure

You may only interrupt or prematurely terminate your stay for important reasons (e.g. illness, unforeseeable events, appointments with the authorities) and only with the consent of a physician.

### Travel costs

If you are exempt from paying prescription fees during your stay, you can apply for travel expenses to the nearest rehabilitation facility to be reimbursed. However, you will not receive any travel expenses if you are exempt from paying prescription fees as a result of reaching the upper limit for the year.

Grenzweg 10  
6800 Feldkirch (Tyrol)

## Section four – Convalescent care stays

---

Stays for convalescence are available for patients to speed up recovery following severe illness or surgery.

Such stays are granted for a period of 22 days.

### Your cost contribution

You pay an additional amount (own contribution) for your stay at the health resort in accordance with the statutory provisions. The cost contribution amount is calculated at the time the application is submitted. You always pay the cost contribution rate valid for the current year for your stay (see page 6).

### Transportation to the facility

The BVA will pay for an ambulance or taxi to the nearest facility if there is a medical reason to do so. Transportation for the journey to rehabilitation must be approved by the BVA before the start of the stay.

### Interruption or early departure

You may only interrupt or prematurely terminate your stay for important reasons (e.g. illness, unforeseeable events, appointments with the authorities) and only with the consent of a physician.

### Travel costs

If you are exempt from paying prescription fees during your stay, you can apply for travel expenses to the nearest rehabilitation facility. However, you will not receive any travel expenses if you are exempt from paying prescription fees as the upper limit for the year has been met.

## Section five – Health resort stays

---

A health resort stay requires a medical indication and a specific amount of time to have passed since the last stay.

Health resort stays are approved for a duration of 22 days.

### Time limits

Two health resort stays will be approved within five calendar years, whereby rehabilitation stays (except for follow-up treatment), stays provided for by the accident insurance and corresponding services of other social insurance companies are to be counted. You may only apply for a repeat health resort stay 18 months after the end of the last stay at the earliest.

### Your cost contribution

You pay an additional amount (own contribution) for your stay at the health resort in accordance with the statutory provisions. The amount of the contribution is calculated at the time the application is submitted. You always pay the cost contribution rate valid for the current year of your stay (see page 6).

### Desired facility

You can indicate your desired location on the application form. We will be happy to comply with this request if possible.

### Assignment of a date

The health resort will send the date to you directly.

### Scope of coverage

The BVA only pays for the contractually regulated treatments prescribed by the health resort's physician. You must pay for all other additional services yourself.

### Interruption or early departure

You may only interrupt or prematurely terminate your stay for important reasons (e.g. illness, unforeseeable events, appointments with the authorities). You may not interrupt or prematurely terminate your stay due to events such as weddings, christenings, birthdays, graduations or attending events.

### Travel costs

If you are exempt from paying prescription fees during your stay, you can apply for travel expense reimbursement to the nearest rehabilitation facility. However, you will not receive any travel expenses if you are exempt from paying prescription fees as a result of the upper limit for the year being met.

## Section six – Contributions for health resort stays

---

Contributions for health resort stays are allowances paid towards the board and lodging expenses when undertaking treatment at specific health resorts recognised by BVA.

The medical indication and the time interval since the previous health resort stay are prerequisites for a contribution to the costs of any such stay.

Contributions to health resort treatment costs are approved for a period of 21 days (indication skin diseases: 28 days).

### Time limits

Within five calendar years, two contributions to the costs of a health resort stay may be approved. Rehabilitation stays (excluding follow-up treatment), Phase III outpatient rehabilitation programmes, health resort stays, stays approved by the accident insurance fund and corresponding benefits from other social insurance institutions are taken into account. You can apply for another health resort stay no earlier than 18 months after completion of your last stay.

### Scope of services in Austria

BVA reimburses the therapies administered and the costs of physicians at the health resort in accordance with the applicable tariff. If there is no contract between the local health resort and BVA, you have to pay for the therapies yourself in advance. You do not pay a treatment fee for the therapies you have completed and for the costs of physicians at the health resort.

### Scope of services abroad

BVA also approves health resort cost contributions for the following health resorts abroad. The contribution to the health resort costs already includes the therapy and physician costs at the health resort.

### Travel expenses

If you are exempt from the prescription fee during your stay, you can apply for the reimbursement of travel expenses to the nearest health resort or for domestic travel. However, you will not receive any reimbursement of travel expenses if you are exempt from paying prescription fees as a result of reaching the upper limit for the year.

## General health resort stays

### Indication: Musculoskeletal disorders

- ITALY: Abano, Montegrotto, Chianciano, Ischia
- HUNGARY: Bad Heviz

## Section seven – Grants

---

### Stays by the sea

Stays by the sea are approved for a duration of 28 days. The location by the sea may be chosen by you.

**Indication: Skin diseases (psoriasis and neurodermatitis)**

**Indication: Respiratory diseases (asthma)**

For this indication, we require a diagnosis from the lung specialist indicating lung function (spirometry or spirometry) and an allergy test, in addition to the completed application form.

### Convalescent stays for children and adolescents

Convalescent stays are granted after serious illnesses and operations for children up to the age of 19 years.

Convalescent stays are approved for a period of 21 days.

### Therapy for children and adolescents

**Indication: Metabolism (diabetes mellitus, adipositas), respiratory disorders (asthma), neurological and oncological diseases**

These grants are provided for stays that take place demonstrably under medical supervision.

They are approved for a maximum of 28 days per calendar year.
